Some of the aids were a modified keyboard, 3D teaching aids, flash card based storytelling, etc. The student teachers got a chance to interact with the students of ADAPT. BEACH CLEANLINESS - 2019

International days are occasions to educate the public on issues of concern, to mobilize political will and resources to address global problems, and to celebrate and reinforce achievements of humanity. Rizvi College of Education along with Help Yourself Foundation had organized a beach cleanliness drive. The beaches are covered with trash – colourful plastic bags, bottles and food packages are everywhere, often entangled in old fishing nets or rotting fabrics. RCOED took this initiative further and created awareness among our families and societies so that we all can contribute in keeping our beaches and water bodies clean and not pollute it by throwing plastic and debris into them.
