Environmental Cell

Paper Bag Day (July 12 to July 14) - In conjunction with IQAC and the Environment Cell, Rizvi College of Education (RCoEd) orchestrated a meaningful celebration of Paper Bag Day from July 12th to 13th, 2023, aimed at advocating for environmentally conscious practices and imparting valuable lessons on the importance of nurturing a green environment. World Paper Bag Day, observed annually on July 12th, serves as a poignant reminder of the significance of choosing paper bags over their plastic counterparts. On this occasion, budding educators from RCoEd took charge, conducting a series of engaging activities designed to raise awareness about the benefits of eco-friendly bags while highlighting the detrimental effects of plastic pollution. These activities included informative discussions, interactive workshops, and a spirited 'Fastest Paper Bag' competition, all tailored to empower student-teachers with the knowledge and skills necessary to promote sustainability in their practice teaching institutions. By seamlessly integrating these initiatives into their internships, these future educators exemplified RCoEd's steadfast commitment to environmental responsibility and contributed to the realization of the college's energy conservation policy.
