**Jadi Bhuti Diwas (Aug 4, 2023)** - Under the guidance of the Environment Cell, led by the dedicated coordination of Mrs. Nahida Mandviwala, Rizvi College of Education's student-teachers embraced the spirit of Jadi Bhuti Diwas on August 4th with a transformative Medicinal Tree Plantation Drive. This collaborative effort, supported by both the IQAC and Environmental Cell, symbolized the college's unwavering commitment to environmental consciousness and sustainable practices. Empowered by the belief in their roles as stewards of the earth, student-teachers enthusiastically participated in the initiative, forming groups and actively engaging in the planting of saplings with medicinal value. Through this hands-on experience, participants not only contributed to the preservation of Indian medicinal plants but also gained valuable insights into their significance in traditional healthcare practices. By nurturing these saplings, student-teachers not only demonstrated their dedication to environmental stewardship but also recognized the reciprocal relationship between human well-being and the health of the natural world.
