

Embracing Differences: Autism Awareness Session

On March 14th, 2024, RCoEd Student-teachers organized an Autism Awareness Session at Bandra Hindu Association to raise awareness and promote understanding of autism spectrum disorder (ASD). The session introduced the condition, its characteristics, and the importance of creating an inclusive environment. Students were engaged through interactive activities, including real-life scenarios involving individuals with autism. The scenarios encouraged empathy and support, and students were tasked with addressing challenges faced by a classmate with autism during a group project.
