

Online Faculty Development Program titled “Workshop on Creating MOOC”

The Internal Quality Assurance Cell of Rizvi College of Education organized an Online Faculty Development Program titled “Workshop on Creating MOOC (Massive Open Online Course)” on 25th July, 2024, via the Zoom platform.

The objective was to enable educators to transact knowledge and reach larger audience by learning how to create MOOC using free tools available online. With the aim to encourage teachers to leverage MOOCs to supplement traditional teaching methods, foster collaborative learning, and provide students with a diverse array of learning resources the workshop commenced at 2:15 pm.

The IQAC Coordinator, Mrs. Nahida Mandviwala expounded upon the program's motto. She set the stage by encouraging participants to practice simultaneously using <https://canvas.instructure.com/> and delve deep into understanding how we as educators can integrate MOOCs into our educational framework, and align ourselves with the goals of NEP 2020.

Dr. Spoty Kartik, the Principal, delivered the welcome address highlighting the importance of collaborations and learning as educators.

Dr. Priyanka Pandey introduced the resource person Dr. Agnes D'Costa, Associate Professor at Pushpanjali College of Education, Vasai.

Dr. Agnes D'Costa, through the workshop aimed to equip all participants with skills and knowledge on effectively using the Canva platform to create MOOC which in turn would enhance the teaching and learning experiences. The workshop provided a comprehensive guide on designing, developing, and delivering online courses, emphasizing the importance of innovative teaching methods and technology integration.

During the workshop, the facilitator introduced the significance of MOOCs and their role in democratizing education. Dr. D'costa explained the impact of MOOCs, emphasizing flexibility, accessibility, and global reach. Participants learned to plan their MOOC by selecting relevant topics and

outlining the course structure into modules and lessons. The facilitator step-by-step guided the participants right from creating a Canvas account to publish the course. The participants received guidance on setting up and designing course structures, including multimedia content, assignments, quizzes, and discussion boards. The facilitator at each step shared samples created by her for her target students which enabled the participants to get better and understand the benefits of using each feature on Canva to create a MOOC for a particular content. The session covered creating assessments, providing feedback, and publishing the course. The workshop concluded with participants sharing their screens to demonstrate the MOOC created by them. The facilitator addressed the queries of participants throughout the session.

Dr. Agnes' workshop was a detailed and hands-on session that provided faculty members with the necessary tools and knowledge to create and deliver a MOOC course using Canvas. The practical approach and step-by-step guidance ensured that participants gained confidence in utilizing the platform to enhance their teaching methods.
