for the competition**

ABOUT RIZVI COLLEGE OF EDUCATION

RCoEd started in 2003 under the aegis of Rizvi Education Society. In a span of fifteen successful years, it has made a remarkable progress in the educational fraternity. It has emerged as a premier institute, creating teachers equipped with the latest trends and technologies in education. It provides dynamic training programs that empower teachers to meet the challenges in the ever changing global scenario. The credit for the success of this institute rests with its President – Dr. A. H. Rizvi, whose vision and endeavor to make a difference in the society led to the establishment and growth of RCOED.

ABOUT THE COMPETITION

To mark India's 72nd Independence Day, Rizvi College of Education is conducting Inter College Digital Poster Making Competition - the only event of its kind in Mumbai. The motive behind the program is to encourage students to revisit the struggle for Independence, to inculcate spirit of nationality, to promote artistic and technical excellence, to encourage amongst students the knowledge and use of ICT to create the aura of patriotism in their minds.

The emergence of ICT has changed the nature of the learning environments experienced by the students. The look of teaching and learning is different nowadays as it is replaced by the digital learning tools and technologies. Digital learning is an efficacious tool that plays a crucial role in education field. It empowers students to be more interested in learning and expanding their horizons. These devices can deliver flexible and personalized learning experiences that meet the unique and varied needs of the students. It's worth noting that pedagogies such as exploration, collaboration and teamwork are key strategies in working with such devices which needs to be developed to be a responsible citizen of the country.

ABOUT THE THEME

“Patriotism Reflecting Through Pictures”

We at RCoEd believe in providing opportunities to students to acquire enriched learning experiences, make a mark and discover the passion. Hence an initiative has been taken to glorify the history of Indian freedom struggle through the digital posters.

Digital Posters are potential medium to help students learn various subjects and topics. The ability to create digital posters is a vital skill. They are one of the most pervasive forms of information communication that allows pictures and words to fit within the relatively small frame of the poster, while also narrowing the focus. They are interactive and facilitate learning without the presenter nearby. These e-posters present a great deal of information in a condensed format. They are eye catching and visually appealing. The use of bright colors and bold text is helpful for getting the attention of children and adults. Students could express their views and thoughts about the theme by including slogans and quotes in their posters
