## Activity Summary Report: Newspaper Collection Drive

The Environment Cell of Rizvi College of Education, in collaboration with internship schools and MESCO, successfully conducted a Newspaper Collection Drive on 24th July, 2025. As part of this initiative, student teachers engaged with their respective internship schools to collect old newspapers, creating awareness about recycling, sustainability, and responsible waste management. The drive resulted in the collection of approximately 95 kilograms of newspapers, which were handed over to MESCO for proper recycling, ensuring that the materials were responsibly reused and did not contribute to environmental waste.

This initiative provided student teachers with hands-on experience in implementing eco-friendly practices and coordinating community-based activities. It strengthened their leadership, organizational skills, and the ability to mobilize school communities for a meaningful cause. By participating in this drive, the student teachers acted as environmental ambassadors, demonstrating the importance of sustainable practices and collective responsibility. The collaboration with MESCO not only enhanced the impact of the drive but also offered a practical demonstration of how small, organized efforts can contribute to a greener and more sustainable environment.
