Activity Summary Report: Series 2 – Seeds Collection

From **2nd to 14th December 2024**, the Environment Cell of Rizvi College of Education, in collaboration with Internship Schools, organized the **second initiative of the Green Guardian Collection Drive – Seeds Collection**.

The activity focused on spreading awareness about the ecological significance of seeds and their vital role in sustaining biodiversity. **SY B.Ed. student teachers** conducted interactive **PowerPoint presentations** in their Internship Schools, educating students on seed conservation and its importance for a greener future.

Following the awareness sessions, school students actively participated in the **Seed Collection Drive**, guided by the B.Ed. student teachers. The collected seeds were preserved and later utilized for plantation activities, ensuring a direct link between environmental knowledge and sustainable action.

The compulsory participation of all SY B.Ed. student teachers ensured full engagement, while the enthusiasm of school students made the event impactful. The initiative not only promoted **hands-on environmental stewardship** but also fostered values of responsibility and conservation among both future educators and young learners.

By connecting awareness with tangible green action, the *Seeds Collection* drive empowered student teachers to emerge as **true Green Guardians**, prepared to nurture eco-consciousness in their future classrooms.
