Activity Summary Report: Series 3 – Tree Plantation

From **17th February to 4th March 2024**, the Environment Cell of Rizvi College of Education, in collaboration with Internship Schools and community centers, organized the **third initiative of the Green Guardian Collection Drive – Tree Plantation**.

This phase of the series emphasized moving from awareness to **direct environmental action**. Student teachers conducted **awareness sessions in community centers**, highlighting the role of trees in reducing carbon footprints, improving air quality, and maintaining ecological balance. These interactive sessions fostered understanding not only among students but also within the wider community.

Following the campaigns, student teachers actively participated in **tree plantation activities**, planting saplings in local community spaces. This hands-on eco-action enabled them to make a tangible contribution to greener neighborhoods while encouraging sustainable practices at the grassroots level.

The initiative was done by **all SY B.Ed. student teachers**, ensuring full participation and collective impact. By combining awareness, community engagement, and practical plantation, the *Tree Plantation* drive reinforced the mission of the Green Guardian series — preparing future educators to act as **guardians of the environment** and inspire sustainable action in their classrooms and beyond.
