## Activity Summary Report: “Constructivist Workshops”

The Science and Mathematics Club of Rizvi College of Education conducted two Constructivist Workshops — *Workbook Creation* and *Board Game Creation* — on 11th and 16th April, 2025, respectively, under the common theme of “Environment.” The initiative aimed to foster creativity, collaboration, and learner-centered pedagogy among student-teachers through experiential engagement. The workshops enabled participants to design innovative teaching-learning materials rooted in constructivist principles, integrating inquiry, reflection, and environmental awareness. While the workbook activity encouraged individual critical thinking and content structuring, the board game creation promoted teamwork and the use of gamification in education. Both sessions successfully aligned with the goals of NEP 2020 and the Sustainable Development Goals, inspiring student-teachers to design classroom experiences that are interactive, meaningful, and sustainability-driven. The participants’ enthusiastic feedback reflected the effectiveness of the sessions in enhancing pedagogical innovation, reinforcing constructivist understanding, and preparing them to be reflective and creative educators.
